

The background of the slide features a pattern of horizontal, wavy black lines on a white background, resembling a stylized ocean or a textured paper.

Seminar psyM1-1

Data Science in Theory

Letzte Woche

- Übersicht
 - Was ist „Data Science“?
- Lernziele
 - Was wollen wir in diesem Seminar erarbeiten?
- Anforderungen
 - Was ist ein „Journal Club“?
- Themen und Termine
 - Welche Artikel lesen wir?
 - Wo arbeiten wir?

Data Science?

- Gruppen-Hausaufgabe:
 - Beispielen zu künstlicher Intelligenz, Data Science, Machine Learning, etc.
 - Filme
 - Serien
 - Bücher
 - Musik
 - ...
 - Wie wird die Datenanalyse dargestellt?
 - Wer sind die Akteure?
 - In welchem Kontext findet die Datenanalyse statt?
 - Was ist das Ziel der Analyse
 - Präsentiert eure Erkenntnisse
 - 15 Minuten pro Gruppe
 - Freies Format

TOWARD DIRECT BRAIN-COMPUTER COMMUNICATION

JACQUES J. VIDAL¹

*Brain Research Institute,
University of California, Los Angeles, California*

Can these observable electrical brain signals be put to work as carriers of information in man-computer communication or for the purpose of controlling such external apparatus as prosthetic devices or spaceships?

- identify appropriate **correlates of mental states** and decisions in external signals
- identify the relevant **information carriers from the garbled** and diffuse mixture that reaches the scalp
- develop **appropriate software** within the constraints introduced by the nature of brain messages
